Food contact statement for adhesive S2012HT

Avery Dennison adhesive S2012HT has been tested by a certified laboratory and has received a certificate of compliance.

S2012HT complies with European food regulation 1935/2004/EC, with the German Recommendation (BfR) XIV and FDA § 175.105. It also meets the demands of the limit values laid down in 10/2011/EU.

In accordance with the requirements of relevant EU food regulations, the adhesive S2012HT may safely stand in direct contact with dry, moist and such kind of fatty foodstuffs to which a correction factor of at least 3 can be applied according to the Regulation (EU) No. 10/2011. This is based on migration results from testing in olive oil as simulant. Furthermore, the seams (edges) of the label material may safely come into direct contact with all kinds of foodstuffs.

According to FDA regulations, the adhesive may come into direct contact with dry foodstuffs, or alternatively it must be separated from the foodstuffs by a functional barrier.
