

Improve drug safety through migration-safe labelling

Changes in Packaging expectations

Beginning in the early 2000s, pharmaceutical manufacturers started utilizing plastics in primary drug packaging. Plastic containers offer advantages – Less Breakable, Less expensive, & more efficient to produce than glass.

However, regulatory groups have raised concerns because of their higher potential for migration – the occurrence of packaging materials leaching through the plastic and contaminating the medicine within, especially for solution.

A portfolio to tackle concerns

Avery Dennison has developed several pharmaceutical labelling adhesives that follow the guidelines on plastic immediate packaging materials:

- ▶ **Migration safe** – Peace of mind for suppliers and risk-free for users's safety according to ISO10993- 18 biocompatibility test
- ▶ **Hassle free** – Pre-tested portfolio bypasses time & money spent on migration certification
- ▶ **Efficiency** – Faster product approval and time to market

General information on issues affecting compliance in the labelling industry is available at

label.sapssa.averydennison.com/compliance

Please contact your sales representative if you have any questions.

Our Pharmaceutical Portfolio

The portfolio went through stringent exhaustive extraction and elemental analysis, with combination as below:

- ▶ Semi-gloss Paper, White and Clear Film: Stability for converting, inherently printable with on press corona treatment
- ▶ Avery Dennison S900 Series Adhesive: No specific concern or risk to patient's safety according to ISO10993-18 E/L Test
- ▶ 40-Micron Glassine: Recyclable and cost effective liner, with no compromise in process stability

How to tap on our portfolio to tackle pharma needs

Contact your local Avery Dennison Label and Packaging Materials representative for more information or to arrange a meeting.

Product Code	Product Description	Application
SW7012F	PHARMA SEMI GLOSS FSC / S901P / BG40 WH IMP	Pharma – General Purpose
SY7013	PHARMA TC WHITE PE85 / S902P / BG40 WH IMP	Pharma – General Purpose
SY7014	PHARMA TC CLEAR PP50 / S902P / BG40 WH IMP	Pharma – General Purpose
SY7015	PHARMA TC CLEAR PP30 / S902P / BG40 WH IMP	Pharma – Autoinjector/Syringe/Vial
