

HVAC Portfolio

Materials designed to perform on a broad range of surfaces under intense conditions

Driven by the need to differentiate, today's manufacturers are turning to new materials and surfaces to enhance product appeal and functionality. In addition, more stringent standards and consumer preference for sustainability are adding new complexities to already demanding labeling applications, including product identification, information, tracking and branding.

Avery Dennison carries an extensive portfolio of materials designed specifically for HVAC applications. These constructions meet UL®, CSA and ANSI standards. In fact, our Customer-Ready™ Durables Portfolio simplifies compliance for HVAC products with pre-approved label solutions that are easy to identify, affordable and risk-free.

From new sustainable materials to constructions designed specifically for impactful branding and point-of-purchase displays, the Select Solutions HVAC Portfolio provides the functionality, availability, efficiency, productivity and sustainability improvements you are seeking, while being able to withstand challenging indoor and outdoor environments. Whether you need hang tags, labels for branding, energy ratings, name plates, or caution and danger warnings, our extensive selection is targeted to your industry and your needs.

Typical Applications

- Air conditioners/air handlers
- Furnaces
- Water heaters
- Heat pumps
- Radiant flooring
- Thermostats
- Dehumidifiers
- Ventilation

Portfolio Characteristics

- Materials that showcase branding and point-of-purchase; with adhesives that remove cleanly over time
- Excellent abrasion and tear resistance; moisture resistance; environmental resistance (temperature extremes / UV / chemicals)
- Advanced adhesives for difficult-to-adhere-to surfaces
- Compatibility with oily surfaces
- Compatibility with laser, thermal transfer and conventional printing methods

A Tool to Help You Achieve Faster, Easier, UL Recognition

Our Global Client Service Laboratory has been developed with the goal to generate test data for our customers in support of UL and cUL recognition for durable goods labeling. Like our Fasson® Customer-Ready™ Durables portfolio, the new lab simplifies the UL recognition process by streamlining product testing and qualification, easing the complexity and costs of UL interaction and compliance for converters.

Avery Dennison Advantage: Technical Excellence

You can count on members of the Avery Dennison Advantage: Technical Excellence Team to help you find the products and solutions that work for you and your customers. Our technical experts are dedicated to making your next application a success. Our people are there for you, helping with scaleup, converting, application troubleshooting and employee training. We'll put the industry's most comprehensive offering of facestocks, adhesives and liners to work for you in the shortest possible time.
