

Apparel

The new Avery Dennison Select Solutions Apparel portfolio gives you more pressure-sensitive options for greater opportunities with brand owners and retailers looking to differentiate their products at the store level. A range of clear and white transcode films featuring exceptional thermal transfer printability, our new Apparel Portfolio provides the application flexibility you need for brand focused apparel and textile labeling.

Apparel label materials are offered with liners in various weights and thicknesses, as well as a range of adhesives designed for good adhesion to and easy removal from many fabrics, including sports performance fabrics.

For sizing strips, the Apparel portfolio's thinner material options provide greater conformability for easier folding when stacking garments on shelves.

Key features

- A range of clear, white and natural-looking materials
- A range of liner materials in various weights and thicknesses
- Adhesives specifically designed for application to and easy removal from fabrics without residue

Application areas

- **S4905L**
Normal fiber, Plain cotton, Lace, Denim, Coated fabric
- **R115**
Fine fiber, Villous, Soft and Elastic Cotton
