

Over-The-Counter Pharmaceutical

Regulations and Compliance

As a vital part of pharmaceutical packaging, we are fully aware that labels must comply with global and local regulations, depending on the market in which they are sold and consumed.

Our materials are in compliance with all applicable regulations, including European food regulation (1935/2004/EC), U.S. FDA regulations, and REACH. Our pharma adhesives* meet the requirements of ISO 10993-5.

* Applicable to S2000NP, S692NP, S717P, S799P

Low Migration Labels

Avery Dennison low-migration adhesives are pre-tested to meet stringent global regulatory requirements. Provided in combination with low-migration base materials, inks and varnishes for plastic containers, pharmaceutical companies can minimize the time and money they spend on migration certification, and in some cases can bypass it altogether.

Small Diameter Labels

With the use of devices such as syringes and test tubes, the challenge for label users is how to address such small diameters and low energy (e.g. PE/PP) substrates. Avery Dennison offers a sophisticated portfolio of labelling solutions designed to provide outstanding small diameter performance with reduced edge lifts, in addition to low adhesive migration.

Security Labels

To counteract pharmaceutical counterfeiters, Avery Dennison provides security labels that reduce the risk of packaging falsification including destructible labels, box damage labels, and labels with luminescent compounds.

Hanging Labels

Infusion container needs to be in a safe hanging position during administration of liquid medication. A reliable hanging equipment goes a long way toward easing their use. Avery Dennison offers labels that are designed to provide a simple and safe hanging of infusion containers. Hanging labels need to be tear resistance and possess low elongation qualities when stretched with hanging loads.

Key features

- Excellent mandrel performance small diameter labels
- Low migration adhesive that meets stringent global compliance requirements
- Tear resistant and low elongation properties hanging labels

Application areas

- Prescription medicines
- Over-the-counter medicines
- Auto-injector pens for diabetics and more
- Pre-filled syringes and vials
- Low migration labels for thin-walled LDPE containers
- Hanging labels for infusion containers
- Security labels for cardboard boxes
