

Water Based Inkjet Materials

Dozens of options, optimized for excellence

For many businesses, printing labels on a water-based inkjet printer is a smart move. Labels can be printed on demand, in shorter runs, with a relatively low capital investment. The key to consistently great-looking labels is to use materials already optimized for the water-based inkjet process. Our comprehensive portfolio of pre-optimized materials lets you choose from an exceptionally broad range of materials that are perfect for segments as diverse as food, home and personal care, beer and beverage, and more.

Consistently high print quality

Our quick-drying materials are purpose engineered to provide outstanding printability on water-based inkjet printers, run after run.

Choose from a variety of finishes

Bring brand identity to life with gloss, matt, semi-gloss, metalised, and more.

Ready for pigment. Ready for dye

Materials are qualified for both dye and pigment based inks.

Key features

- Consistent print quality materials
- Broad range of materials
- High ink hold out and quick drying properties

Application areas

- Wine and spirits
- Food
- Home and personal care
- Reclosures and removables
- Chemicals
- Logistics and transportation
