Data & Specification Sheets

label.averydennison.com

Should you require more technical data for any of our products, you can download specification sheets from our website. If you cannot find the specification sheet you are after, please contact your Avery Dennison representative.

Introduction

Welcome to the April 2025 Product Services Guide. This Guide was created to provide you with a single document to inform you of the core product portfolios of Avery Dennison Label and Packaging Materials Kenya.

Item	Facestock	Adhesive	Liner	Service Program / Width (mm)	MOQ (m ²)	Length (m)	Sustainable Advantage	Comments
AL89350F	*SEMIGLOSS 80 FSC	S2045(HM)	BG40WH IMP	EXACT	1000	2000	 Responsibly sourced. Renewable content (Adhesive Contains 30% Renewable Content)	
ALY89350F	*SEMIGLOSS 80 FSC	S2045(HM)	BG40BR IMP	FULL DECKLE 1500mm	3000	2000	 Responsibly sourced. Renewable content (Adhesive Contains 30% Renewable Content)	

How to read the Product Services Guide

Item:

The item number identifies the product on your delivery documents and invoices.

Facestock:

Identifies the facestock used in the construction.

Adhesive:

Identifies the particular adhesive used in the construction.

Liner:

When liner codes end in the letter 'N' this signifies a nil imprint. PET liners never have a backprint.

FSC® certified facestock or liner

* Only the products identified as such count with Forest Stewardship Council® certification.

Service Program:

The service program details how the product is sold to the market.

- FULL DECKLE
Signifies the product is sold with the complete web width and the minimum length of 1000 metres.
- EXACT
Items are sold in any width with fixed lengths that vary for each program.

MOQ (sqm):

All orders must meet Minimum Order Quantity. SQM is determined by multiplying width by length.

Length (LM):

Identifies the length in lineal meters, offered in a service program

Stocking Location:

Indicates which AD site the product is stocked in

Sustainable Advantage:

Why the product is part of the Sustainable Advantage portfolio.

Look for the marked
Sustainable ADvantage
products in this
Product Services Guide

Contains Recycled or Renewable Content

Give a second life to what has already been used.

Facestocks and liners that include post-industrial waste or post-consumer recycled content.

Renewable Content - The renewable sources can be used for facestocks, Adhesives and/or liners, and/or other coatings with at least 30% of the content of that specific component.

Reduction in the use of materials

Use only what is necessary.

Thinner facestock, adhesive, or liner that uses less raw materials to be manufactured

Enables Recycling, Reuse or Compostability

What we use can be used again.

Solutions that enhance recyclability and enable reuse and recycling of packaging as well as the recycling and composting of label waste

Responsibly sourced

Products sourced from a supply chain that shows care for people and the environment.

Film made from renewable alternatives and paper certified by FSC® or other organizations

The mark of
responsible forestry

Operational Terms & Conditions

Any exceptions to the standards are subject to an upcharge unless otherwise noted

Core Diameter

- 76mm
- Specialties on Request

Splice Standard

- Up to 1000m: 1 splice
- 1000 – 2000m: 2 splices
- More than 2000m: 3 splices

Minimum Distance Between Splices and to Start/End of a Roll

200 m

Splice Tape

PVC Red/Brown Tape

Splice Indication

Number of splices is indicated on the roll label and position of splice indicated by stamp on side of the roll

Offcut Disposition

Customer will be charged for full deckle unless sales order is requested on Fasson Exact™ program

Slit Width

- Minimum slit width is 90mm
- Maximum slit width is 1500mm
- Maximum width dependent on master roll width

Slit Roll Width Tolerances

Width tolerance is +/- 1mm

Roll Length

Minimum Standard roll length is 1000m

Roll Length Tolerance

Roll length tolerance of +/- 10%

Maximum Roll Length

Up to 3000m – dependent on product

Total Order Quantity

Order supplied +/- 10%

Packaging Method

Rolls will be horizontally or vertically packed

Roll Tag Labels

Roll Labels on outside of roll and one in roll core

Palletized deliveries

- All deliveries as required are palletized
- These pallets remain the property of Avery Dennison and need to be returned.

Maximum Stack Heights

1m

Minimum Order Quantity

- Standard MOQ is 1000m of the full material width
- Fasson Exact program MOQ is 1000m². Certain Specialties may be 500m²

Material Quality Matters

- Material to remain at the customer's premises until final testing/evaluations have been done
- Complaints are attended to within the stipulated life of the product as per material data sheet
- Response to complaints within 2 working days
- Resolution within 21 working days – dependent on type of complaint

Technical Support

- Technical support and product training available for both converters and end users
- Training is offered at ADIKC

Cut-off Times For Orders

- All orders received at or before 1pm will be delivered within 48 hours unless confirmed otherwise
- Fasson EXACT products lead time is 2 working days to dispatch EXCEPT when product ordered is not offered at the local DC in which case transportation lead time of additional 2 working days applies.
- Collection from 8.30 am- 16.00 pm
- Customer must make collection arrangements at least 3 hours prior to collection
- Direct indent orders have 8 – 12 weeks lead time depending on freight mode and source

National Freight Charge

- Applicable freight charges:
- As per agreed pro-forma terms & conditions for exports orders
- Should customer require stock faster than the standard channel

Order Cancellation

- Not permitted once slit
- Fasson Exact Program sales order cancellation not permitted once Order Acknowledgment has been issued

Operational Terms & Conditions (continued)

Width Substitution

As agreed upon by both parties

Product Substitution

Substitution with the nearest alternate product allowed in the event of stock shortage and agreed by both parties

Changes on Service Programs

- Please note that the release of this Product Services Guide happens once in a quarter, therefore this release does not mean or suggest or be understood in any way to mean that the service programs listed in this document will remain the same throughout the quarter
- Lookout for communications from our Customer Services for any Service Program changes that may happen after this release
- We encourage the frequent use of the MyAD portal for Service Programs as it will always reference the most recent as per available inventory

Damaged Product on Delivery

- Customers to inspect all products on delivery.
- Any damages to be acknowledged at the time of delivery by being noted on the Delivery Docket
- Avery Dennison approval required before material is picked up
- Failure to acknowledge at the time of delivery will be deemed that the damage occurred at the customer's premises

Customer Purchase Order

- Email Purchase Order to Avery Dennison Order Centre email address: adkenya.cs@eu.averydennison.com and your Sales Account Manager
- Customer Purchase Order should include the following information:
 - Purchase Order number.
 - Company Name / Account number.
 - Delivery address, Required date.
 - Item required, Quantity required & Price.
 - Name & title and contact number for Buyer.
- Once purchase order has been processed by Avery Dennison; an order acknowledgment will be emailed to the customer
- Failure to clearly supply these details may result in delays

Proof Of Delivery

Material to be checked. Delivery Docket signed and returned to driver/courier

Price increase

- 30 days notice period
- Notice period may change subject to exceptional circumstances
