

India Matrix Waste Recycling Program

AD Circular waste management program in collaboration with Dhartie Warriors delivers an effective solution to recycle your Pressure Sensitive Matrix Waste

Avery Dennison

Ensures your matrix waste is recycled sustainably and cost effectively. This program enables you to divert your waste from environmentally harmful landfill and incineration

Label Converter

Transportation

Stores matrix waste for collection

Requirements:

- Store Matrix in a dry place
- Plastic waste matrix if shredded should be bailed to optimise the logistics

Label Converter transports waste to Dharti Warriors collection centre

Energy Plants

Waste is transported to waste-to-energy plants where it is sustainably disposed
