

2019 Wine Service Programs

When seeking brand differentiation, unique, pressure-sensitive facestock materials can be the difference between your brand remaining on the shelf or being enjoyed by consumers.

For new projects on unique materials, low volume rolls and custom widths are often crucial in helping manage inventory and cost. That's why we've introduced new EXACT and Ready Width services for several premium products in our Wine & Spirits portfolio, like the Black Collection and the Sensorial Range.

The Ready Width service program allows you to purchase just 1 roll at a standard width & length. Our EXACT service allows you to order the exact roll width at a predefined length. Making it easier for your business to kick-start smaller projects, especially for premium products like our Sensorial range.

Use Avery Dennison pressure-sensitive wine label materials and flexible service programs to your advantage.

For more information, please visit label.sapssa.averydennison.com

Need your stock in a hurry?
Ask about our new Express Indent service, a fixed rate 10 day air freight program designed to get you new materials faster!
