

Radiant and coloured direct thermal products

Direct thermal printable radiants, wine papers and foils give you a solution for every application – with Minimum Order Quantities down to 1000 sqm.

Radiant papers are highly popular in segments such as retail. They can help you highlight important information, correct errors, run promotions or reduce prices. High visibility also makes them effective in other applications, such as large 'warning' tracking labels.

Conventional coloured direct thermal labels often use solid ink printed on direct thermal paper. This can compromise the thermal layer and its print characteristics. For very high volumes, a direct thermal coating is sometimes applied to the coloured paper instead.

The radiant and coloured direct thermal films solve these issues and offer excellent direct thermal printability with products available with Minimum Order Quantities down to 1000 sqm.

Key features

- ▶ Highly visible direct thermal materials
- ▶ Coloured, structured and metallised options
- ▶ Direct thermal topcoat
- ▶ Bisphenol free
- ▶ Improved water, oil and plasticiser resistance
- ▶ Wide variety of adhesives

Application areas

- ▶ Promotional barcodes
- ▶ Price tags
- ▶ Food labelling with variable information
- ▶ Shelf labelling
