

Drum Portfolio

Durable, proven materials featuring BS 5609 Section 2 and 3 certification

Seeking a reliable solution for labeling industrial drums carrying chemicals? The Avery Dennison Select Solutions™ Drum portfolio offers an impressive track record of proven performance on a broad range of containers and surfaces.

Whether for painted steel or molded polyethylene drums, our film and heavyweight paper facestocks have been chosen for their ability to withstand harsh environments and outdoor exposures. In fact, all our drum portfolio facestocks have passed BS 5609 Section 2 and 3 Marine Immersion label testing, including a three-month exposure to saltwater, as part of International Maritime Dangerous Goods (IMDG certification).

Our Drum Portfolio facestocks are combined with our best-in-class adhesives to offer needed versatility. Because these labels are typically hand-applied, drum adhesives must be repositionable to amend misapplied or misaligned label applications. The adhesive must also wet-out quickly to become permanent, remaining highly durable over a drum's long-term exposure to the elements.

Portfolio Characteristics

- ▶ Consistent adherence to a range of drum surfaces
- ▶ Strong enough to withstand ongoing outdoor exposure
- ▶ Weather- and temperature-resistant
- ▶ Impervious to contact with aggressive chemicals and saltwater
- ▶ Highly adaptable to varying container sizes and diameters
- ▶ A range of cost and performance options
- ▶ Materials suitable for thermal transfer and laser printing
- ▶ Repositionable adhesives
