

AFB™ for Industrial Applications

Viscoelastic foamed adhesive with semi structural bond strength for a wide range of applications

Durable acrylic foam bonding solution with a viscoelastic core, offering excellent tack, adhesion and cohesion performance, plus a high degree of conformability, gap filling and stress relaxation properties.

Features

- ▶ Viscoelastic foam core
- ▶ High density foam
- ▶ Excellent environmental resistance properties
- ▶ Easy release liner with paper or PE film

Benefits

- ▶ High conformability and extremely high internal strength
- ▶ Excellent durability
- ▶ Easy converting to increase efficiency

Applications

- ▶ Metal to Glass Bonding
- ▶ Door Glass Bonding
- ▶ Decorative Trims
- ▶ Glazing
- ▶ Name Plates
- ▶ Sign Construction
- ▶ Window Lens Bonding
