

High Performance Acrylic Adhesive for LSE Substrates

High performance acrylic with high holding power and stress resistance for low surface energy bonding

Designed for bonding to a wide variety of low surface energy (LSE) plastics, metals and paints, this versatile high performance acrylic laminating adhesive is ideal for applications where high temperature performance, long term holding power and resistance to harsh environments are required.

Features

- ▶ Moisture stable liner
- ▶ Specially developed cross-linking adhesive
- ▶ Highly engineered modified acrylic adhesive
- ▶ High immediate adhesion on wide range of low surface energy (LSE) plastics

Benefits

- ▶ High temperature holding power
- ▶ Outstanding resistance to solvents, chemicals, plasticizers, moisture, temperature and UV light

Applications

- ▶ Graphics
- ▶ Control Panel Attachment
- ▶ Decorative Trims
- ▶ Labels
- ▶ Antenna Mounting
- ▶ Assembly
- ▶ Name Plates
- ▶ Security Documents

Product information

Product Code	Short Description
HPA 2922	119 Micron Transfer Tape
HPA 2925	51 Micron Transfer Tape
