

Shelf-life meets Shelf-appeal

Rapid-Roll® Expands Shrink portfolio to include Pentalabel® eklipse™, light-blocking shrink film. Narrow web converters can continue to meet the expanding needs of brand owners with a new innovation in label technology. Eklipse™ offers superior brightness and whiteness, high-performance shrink percentages to enable design freedom, and the opportunity to lower costs by eliminating high-barrier/multi-layer primary containers.

Eklipse™ light-blocking technology provides a cost-effective, process-efficient functional solution without sacrificing high-impact shelf-appeal in the fast-growing ready-to-drink beverage category where consumers are seeking indulgence, health benefits and great taste.

As consumers continue to drive demand for functional packaging, Eklipse™ provides consumers confidence in product freshness, protection and brands alternatives in sustainable packaging solutions.

Key Features

- Brightest white opaque film technology available
- Light-blocking with transmission rates of <1%
- High shrink properties (~72%) for versatile 360° coverage
- High acceptance to glossy and matte varnishes

Benefits

- Extended shelf-life for more sustainable consumption
- Vitamin protection and off-taste reduction (dairy products)
- Color protection
- Reduced total package costs (replaces HDPE multi-layer primary containers)
- Eliminates the need for two-sided printing
- No flood coat printing required
- ~ 2% less maintenance costs and downtime associated to ink clean up/pickoff
- Allows for use of recyclable clear PET containers
