

Avery Dennison **AD**vantag^e: Complete Compliance

QuickFacts

Avery Dennison's compliance team is part of Avery Dennison's core business and we understand TSCA requirements. The raw materials that Avery Dennison uses to make its products include chemical substances. Avery Dennison has a TSCA compliance program to assure that all chemical substances produced or used in our U.S. operations comply with all applicable TSCA requirements. This includes confirming that chemical substances are on the TSCA Inventory and in compliance with any applicable TSCA requirements for specific chemicals. We monitor TSCA requirements so that we are informed early of any potential forthcoming requirements or restrictions, and can prepare for them.

The U.S. EPA's website on TSCA is at:

www.epa.gov/oppt
