

> AXR1 Super Premium Resin

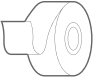

Avery Dennison Receives UL969 and c-UL C22.2 No. 0.15 recognition with Armor USA on AXR[®]1 Ribbon

With collaboration and testing from Avery Dennison's Global Client Service Lab, Underwriter Laboratories Inc (UL) has issued recognition on nine Avery Dennison products for use with the ARMOR AXR[®]1 ribbon and will be featured in the Avery Dennison Durables Customer Ready Portfolio.

AXR[®]1 is a resin ribbon which combines competitiveness and performance. It is suited for the most demanding applications in terms of durability and cost. The high sensitivity of the ink enables AXR[®]1 to print on a diverse range of labeling materials, and its level of blackness is very high.

Compliant with:

- Food contact
- RoHS, Halogens
- BS5609 section 3
- UL969 certification with Avery Dennison materials

Avery Dennison offers a core of multipurpose products that have been tested alongside the AXR[®]1 ribbon. These products are proven to cover the majority of durables and industrial applications, including: PET, polypropylene, vinyl and synthetic paper. Avery Dennison's Global Client Service Laboratory has been developed with the goal to generate test data for our customers in support of UL[®] and cUL[®] recognition for durable goods labeling. The CTDLP lab simplifies the UL recognition process by streamlining product testing and qualification, easing the complexity and costs of UL interaction and compliance, and increasing speed to market for converters.

The following Avery Dennison products are now approved for use with ARMOR AXR[®]1

Spec Number	Description
77920	2 Mil White PET TC / S8025 / 50# SCK
77921	2 Mil Clear PET TC / S8025 / 50# SCK
77922	2 Mil Matte Chrome PET TC / S8025 / 50# SCK
78385	2 Mil White PET TC / S8001 / 50# SCK
78387	2 Mil Matte Chrome PET TC / S8001 / 50# SCK
78403	2.3 Mil White BOPP TC / S8001 / 50# SCK
79453	2 Mil White PET TC / S8049 / 50# SCK
79534	2 Mil Matte Chrome TC / S8049 / 50# SCK
79648	4 Mil White Flex Vinyl TCD / S8025 / 50# SCK
