

# Synthetic Papers Portfolio

Avery Dennison offers the broadest range of synthetic papers in the industry, with options to satisfy many durable goods labeling needs. Synthetic papers look, feel and print like premium matte-coated paper while offering the durability needed for a range of applications.

Synthetic papers resist yellowing from UV exposure, leading to longer shelf life. They can also withstand exposure to water, weather, grease, and chemicals while resisting tearing. Additional treatment and coatings are not needed to help synthetic papers withstand these environmental factors.

Benefits

- Matte surface for readability
- Work well on multiple different types of printing presses
- Withstand different environmental factors with less treatment/coatings
- Increased shelf life
- Look and feel of paper with added performance qualities of film

Key Features

- Bright white matte face stock
- Highly printable surface
- Grease, tear and water resistance
- UV resistance to yellowing
- Resistance to liquid and moisture absorption
- Excellent layflat for sheet applications
- Foldable

Application Areas

Appliance

- Warning labels
- Information labels

Medical device

- Instructional labels
- Safety labels

Product Identification

(in place of metal nameplates)

- Serial number
- Manufacturing information

Warehouse labels

- Shelf Labels
- Bin labels
- Work in Process (WIP) labels
