

Digital Printing Portfolio

Fasson® Digital Portfolio Guide for HP Indigo

Fasson® product constructions shown have been evaluated by Avery Dennison on HP Indigo platforms and are recommended based upon internal test results. Additional product constructions are available. Many of these products are available through the Exact™ and Ready-Width™ service programs. The 1-slit roll minimum and next-day shipment are a great complement to the short run / quick turn capabilities of digital presses. Please contact your Avery Dennison sales representative for assistance.

*Fasson 48 Ga. PET Lex Pkg Gloss SW Overlam is specifically designed for flexible packaging applications. The polyester layer complies with CFR Title 21 Section 177.1520 and the adhesive layer complies with CFT Title 21 Section 175.105 for indirect food contact. This film is not designed for printing

NOTE: As label graphics and performance requirements vary, we encourage end use application testing of all materials prior to use.

Product Information

Digital Fasson Ready Width™ Program Guidelines

- › Roll lengths may vary by +/-10%
- › Order cut-off time is 12pm (program location time) to meet the shipment Ready Width™ timelines outlined above
- › Minimum slit width & maximum order size is location-specific. Orders shipping from FTW may be subject to a maximum of 10 rolls/per day
- › Core size is typically 3" with the exception of select film products
- › Standard packaging
- › Cradle pack available on 7500' and above programs (with 20" minimum order size per pallet for safety)
