

Sensorial collection

Engage your senses

Label look is just one part of a consumer's impression of a bottle. Communicating brand values properly means going further – how does a label feel? What's the sound when it's touched? Is there perhaps even scent?

The Avery Dennison Sensorial Collection gives designers a broader toolset. Different label surfaces can be created using soft touch, textured or patterned papers creating a premium, vintage or artisanal feel. Hand-picked trees used to create wooden labels that recall the roots of nature with a delicate scent. Diverse label surfaces can be used to give consumers a subtle message when hearing the sound of a finger moving over the surface. And of course an outstanding visual impact is retained to engage the most dominant of all the senses.

A wine, spirits and craft beer journey may always reach its zenith in taste, but Avery Dennison Sensorial materials help you to give the consumer a detailed and rewarding experience on the way.

KEY FEATURES

- > Materials for any premium brand image
- > Engage all consumer senses
- > Offers differentiation in the high end labels materials
- > Excellent service and minimum order quantities

APPLICATION AREAS

- > Wine
- > Spirits
