

Avery Dennison® **Select Solutions™** Find your EXACT match

Your guide to a more flexible business and new opportunities

NEW

Extended Fasson® **EXACT™**
and **Ready Width™** services

Select Solutions™

Find your EXACT match

Your EXACT match has arrived. Our new extended Fasson® EXACT™ and Ready Width™ services cover even more of the Select Solutions portfolio – giving you materials precisely tailored to your application needs with a typical lead time of just one day. We offer you the kind of service options that can kick-start your business and grow your bottom line.

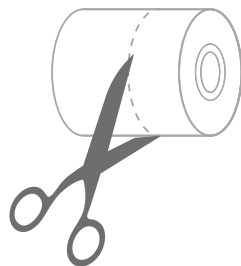

Low-volume rolls and custom widths are crucial for some projects, giving label converters all-important inventory and cost control. Our newly extended Fasson EXACT and Ready Width service levels, available for the Select Solutions portfolios, make sure that you can respond more quickly to end-user requests for specialty label constructions. In fact, low minimum order quantities ensure real flexibility for special projects, and the service now includes more materials and more applications than ever before.

Download the Select Solutions catalogue at label.averydennison.eu/select, or scan the QR-code.

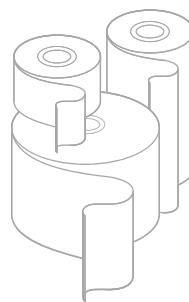

Fasson EXACT™

Our EXACT service allows you to order the exact roll width at a predefined length.

Fasson Ready Width™

The Ready Width service allows you to purchase low volume products at standard widths and lengths. The Ready Width service now includes products with a length of only 500 linear meter.

NEW

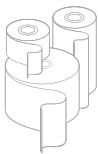

Now more than 150 products are available under the EXACT and Ready Width programs for the Select Solutions portfolios.
