

Select Solutions™ Cover-Up Portfolio

High-opacity barrier coating on paper or film corrects errors and covers-up outdated information on packaging, labels and containers.

Typos, changes, omissions, updates ... no matter the mistake or need to re-label, Avery Dennison's Select Solutions Cover-up portfolio can make it right.

Available in a variety of facestocks with a range of adhesives from removable to hammerlock for heavy holding, our Cover-up papers and films are suitable for many applications – and many application environments. Cardboard, wood, textured surfaces ... no matter the material, Cover-up has it covered, obscuring information and multicolor graphics even on clear containers. Sell it to brand owners or use it on press to re-run jobs – Cover-up cuts the high cost of having to start over from scratch. Lay-flat liner option available for sheeted applications.
