

Select Solutions™

Transfer Tape Portfolio

From general-purpose tapes to custom engineered materials, Avery Dennison will work with you to create valuable solutions to meet your needs.

Avery Dennison's Select Solutions Transfer Tape portfolio consists of pressure-sensitive adhesives of different coat weights and strengths pre-applied to liners, then covered with a special release liner. The release liner protects the adhesive until it is removed.

These general-purpose tapes add value in a variety of ways, helping converters solve a myriad of issues. Transfer tapes are suitable for many applications – and many application environments. Ideal for mounting, framing, bonding and laminating, Avery Dennison transfer tapes offer good conformability and adhesive wet-out.

Product Information

Applying Transfer Tapes

1. Remove the release liner.
2. Turn the tape over.
3. Apply the tape, adhesive side down, to the application surface.

Portfolio Components

- Multiple Transfer Tapes and adhesives
- Must order full master of desired slit width
- Custom pattern gum designs are required for new slit widths
- .25" of ungummed area on each roll facilitates handling

Applications

- RFID Application for Logistics and Transport
- Food and Retail Promotions
