

Fluorescents

Available in a wealth of bold, bright colors, Avery Dennison fluorescent label materials for food industry applications are as versatile as they are functional, improving supply chain visibility, waste reduction and freshness labeling. Used as inventory and warning labels, as well as eye-catching advertising and promotional labels, fluorescents demand attention. They not only communicate important data, such as use by dates that provide consumer confidence and safety, they also boost consumer impulse buying due to their immediate shelf impact. However you use them, our fluorescent facestocks provide excellent stability and durability in application.

Select Solutions™

Food Safety and Promotion Portfolio

Fluorescents and dissolvables identify and safeguard.

Dissolvables

When labels are removed from food containers before being washed, there's a good chance adhesive residue will be left on the container. Bacteria can grow on this residue, creating the possibility of cross-contamination. Avery Dennison dissolvable label materials are virtually residue-free, disintegrating in seconds when immersed in water. No residue means no bacteria growth. Because dissolvable labels don't need to be removed, they save on clean up time, making it possible for employees to spend more time on other tasks.

Portfolio Components

- Fluorescent Papers
- Dissolvable Papers

Portfolio Characteristics

- Fluorescents are available in many bold colors
- Dissolvables disintegrate in water in seconds with slight agitation
