

On-the-go consumers are demanding more convenient, easy-to-use functional packaging; The Avery Dennison Select Solutions Reclosure Portfolio has been designed to deliver just that. Our innovative packaging solutions meet various application parameters from dry to high moisture, providing the kind of innovative, cost-effective alternatives to zippers and hard case reclose packaging brand owners are seeking.

Reclose labels are designed for the easy opening and/or multiple open-close cycling of flexible packaging. They provide an economical method of repeated pack sealing – combined with branding – in one label.

- Wet applications, such as wet wipes, include water, scents, oils and chemicals within the saturating fluid that come in direct contact with the adhesive. Wet applications can also include packages containing food (such as deli meats), water or oils.
- Dry applications include such products as paper tissues or food, items like rice, pasta or coffee.

Select Solutions™ Reclosure Portfolio

Cost-effective, user-friendly resealing alternatives combining convenience with branding.

Our portfolio of film facestocks and reclose adhesives has been specifically designed to meet wet and dry applications. Able to deliver high-quality graphics, these facestocks and adhesives also provide increased operational efficiency as well as excellent reclose functionality.

Portfolio Components

- PET Films
- BOPP Films
- Reclose Adhesives
- Direct and Indirect Food Contact approved adhesives
- R1490 adhesive approved for direct food contact and suitable for microwave conditions

Portfolio Characteristics

- Works with wet or dry applications
- Can be over-laminated with transparent PP or PET films for added stiffness
- Various types of seal strength and peel “feel”
- Good moisture, solvent, fat and oil resistance

Applications and Segments

- Home and personal care
- Food

Avery Dennison **AD**vantage: Technical Excellence

You can count on members of the Avery Dennison **AD**vantage: Technical Excellence Team to help you find the products and solutions that work for you and your customers. Our technical experts are dedicated to making your next application a success. Our people are there for you, helping with scaleup, converting, application troubleshooting and employee training. We'll put the industry's most comprehensive offering of facestocks, adhesives and liners to work for you in the shortest possible time.

	<p>Applications: Dry Conditions (dry foods, cookies, crackers)</p> <p>Adhesive: R3400</p>	<ul style="list-style-type: none"> » Easy Peel Back » Low Odor » Meets FDA 175.105 requirements
	<p>Applications: Damp Conditions (deli meats)</p> <p>Adhesive: • R3500 • R3525 - 25% higher peel than R3500</p>	<ul style="list-style-type: none"> » Economical Alternative » Good Initial Tack » More "grab" than R3400 » Low Odor » Meets FDA 175.105 requirements
	<p>Applications: High Moisture Conditions (wet wipes, cleaning pads, facial wipes)</p> <p>Adhesive: R1490 – High-Performance Approved for Direct Food Contact</p>	<ul style="list-style-type: none"> » Stable, Smooth Peel Back » Low Odor » Excellent Adhesion Rebuild » Broad Substrate Performance » NEW FCN 1716 Direct Food Contact and Reheating of Prepared Food Compliant

Available with white and clear top coated BOPP. Available custom facestocks for tailored solutions. For other FDA requirements please contact your Avery Dennison representative.
