

# Recycle your PET Label Liners with AD Circular

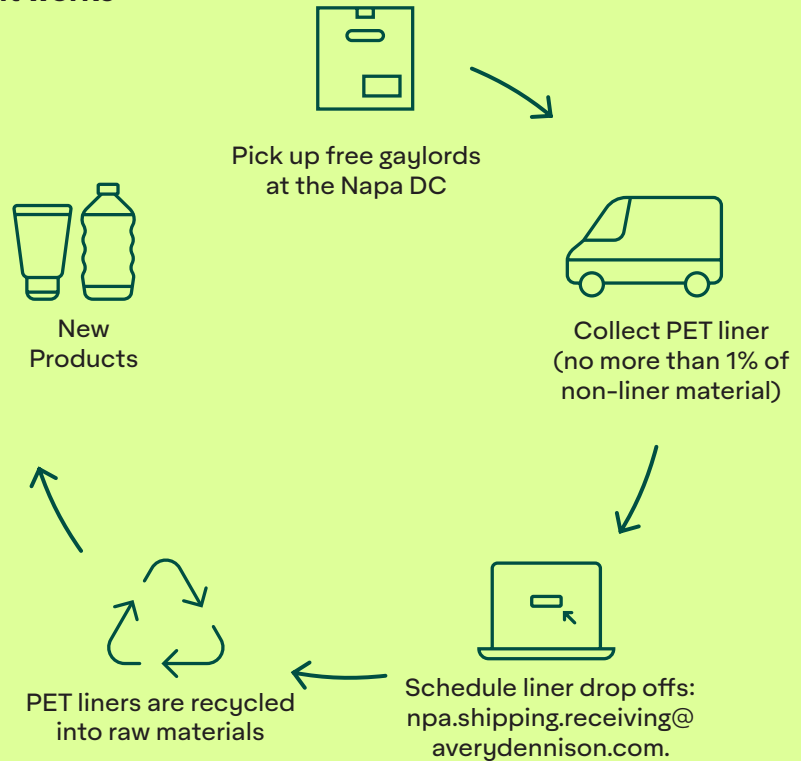

To increase PET liner recycling rates in Northern California, Avery Dennison is launching a liner collection pilot.

## Why use AD Circular

Utilizing our Napa Distribution Center located in Fairfield, CA, we will collect PET liner from label printers and wineries.

Avery Dennison is working with a provider to pick up the liner to send to a recycling outlet in order to help you achieve your goals for recycling, reducing greenhouse gas emissions, and more.

## How it works

**Together, we can eliminate liner waste.**

## Specification

- Place liner in a gaylord box on a pallet
- Mark each box with participant name
- Keep gaylord dry to reduce structural failures and keep spent liner material dry
- To avoid gaylord damage, do not stack pallets and gaylords on the trailer when shipping to our Fairfield, CA site
- Estimated weight range for a gaylord with liner is 750 -1,000 lbs
- For label printers and wineries able to collect / store truckload quantities, please visit our [AD Circular website](#) to get started.

Avery Dennison, 2195 Huntington Drive, Fairfield  
Receiving hours are from 7 a.m. to 7 p.m. Monday – Friday.
